Brief Introduction

The journey of the team began in 2015, which led to the incorporation of **57Network Consultancy Sdn Bhd**, a consultancy and training firm that aims to transform the culture of organisations everywhere.

We help organisations like yours **develop a strong culture of collaboration, innovation, and growth** through software technology, custom training programmes, and consulting services.

Our clientele come from a wide variety of industries, including **manufacturing, technology, accounting, construction, engineering, oil & gas, payment gateway solutions, architecture, and automobile.**

Our Purpose

Empowering Innovation
and Joy towards
Organisational Efficacy

The heart of our solutions and services center around Empowerment, Innovation, and Joy. Our ultimate purpose is to **empower individuals, organizations, and communities with the knowledge, tools, and resources they need to work better, achieve greater efficacy, and ultimately find joy in their endeavors.** We believe in constant innovation and improvement, aligning ourselves with our purpose and mission to make lives better and transform challenges into opportunities.

We are committed to restoring joy in the workplace and in personal well-being, focusing on understanding each person's strengths and passions, and placing them in roles where they can thrive. Our training and solutions enable our customers to harness the power of technology, enhance team collaboration, and operate with transparency and integrity, all while ensuring that the right things are done, bringing joy to all hearts involved.

Our digital transformation services encompass a wide range of impacts, including enhanced efficiency, improved customer experiences, optimized operations, data-driven decision-making, skills development, work-life balance, leadership excellence, and employee growth. We envision a world where our stakeholders, including employees, leaders, and organizations as a whole, experience enhanced job satisfaction, increased engagement, reduced stress, improved collaboration, personal growth, enhanced creativity, higher retention, stronger leadership, a positive organizational culture, and a lasting impact on the community.

At 57Network, we strive to help individuals and organizations **'Work Better, Work Smarter,'** by fostering innovation, aligning with purpose, and bringing joy into the daily journey of life and work. We are here to empower you to be the agent of transformation at your organisation, to cultivate strong values, and to innovate with a clear sense of purpose and mission.

Meet Our Founders

We believe that having an effective, efficient, and digital-first team is the key to growth and productivity. And our team has many insights to share from our wealth of experience and entrepreneurship in different industries.

Digitization is the name of the game when it comes to improving team productivity. **We provide both training solutions and digital products that optimise your organisational workflows and enhance cybersecurity.** Even if you feel like your team needs a lot of guidance in embracing a new way of working, we can be there for you every step of the transformation.

RICK BENJAMIN LYE
Founder & Director

A tech enthusiast at heart, Rick has more than 14 years of experience in the tech industry as a Solutions Consultant. He specialises in developing, deploying, and teaching ICT solutions for business operations.

His passion in working with new technologies pushed him onto the path of sales and development in the tech space.

VIVIEN CHONG
Modern Work Management Specialist

With 15 years of experience, Vivien is an expert corporate trainer who is also a practitioner herself of the systems and programmes that she designs and implements.

She has worked with companies in APAC and Europe to help them improve their productivity and performance. Her specialisations include leadership development, and event and programme planning.

Our Products & Services

Software Solutions

We are certified distributors for a wide range of software solutions that enhances an organisation's productivity, efficiency, cybersecurity, and general health. Here are some of them:

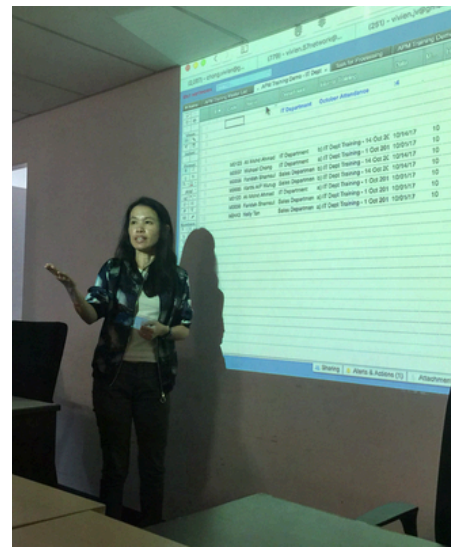

Bitdefender

Consulting, Solution Building & Training

Before recommending a software solution, we offer our solution-building and training services so that organisations like yours can make the best use of new technologies, with clear guidance, reasoning, and support. During and after software deployment, we also provide training so the teams are well prepared to integrate these tools into their daily operations.

Our Milestones

2015

57Network was incorporated in May 2015, primarily as Cloud Business Application, and SIP Telephony Service Provider. We began serving customers from various industries, including MNC, Enterprise, Social Enterprise, and SMEs.

Our training and digital solutions are empowered by Award Winning Technology Partners, such as Bitdefender, Smartsheet, Microsoft, and many more.

2016

We registered as an Applications Service Provider (ASP) under MCMC. Even as a smaller company, we successfully acquired the necessary telco license from MCMC to provide IP Telephony and VOIP Call Saving to Corporate Customers.

Our Milestones

2016

Since March 2016, we have been certified as a Gold Partner for Bitdefender, an award-winning cybersecurity technology company, protecting over 500 million users worldwide, including SME, Corporate, Enterprise, Service Provider, and Government. From office endpoints to data centers, we started to provide companies with a solution that gives them comprehensive protection across all modern infrastructure within public and private cloud infrastructures.

This includes platforms like Azure, AWS, VMware, Citrix, Nutanix, etc. Since then, we have helped our clients to defeat highly sophisticated Cyber Attacks across various industries, such as Ransomware, Crypto-Jacking, File-less Attacks, etc.

We conducted a Cybersecurity Awareness Talk for non-technical employees in the insurance industry.

Our Milestones

2017

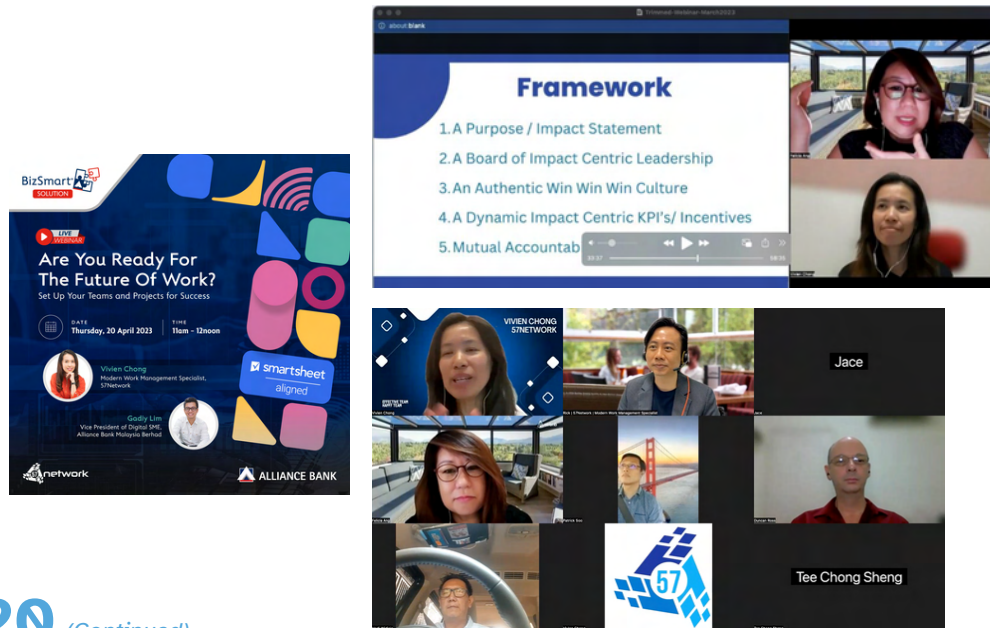

We were certified as a Partner by Smartsheet Inc, Seattle, United States. This further solidified our purpose and goal to help businesses transform the way their teams work, enabling them to get work done efficiently. With Smartsheet partnership, we become more focused on offering new ways to track, plan, automate, report, and accelerate business execution processes, at scale.

At the same time, we leverage Smartsheet to enable key stakeholders and executive teams to make better decisions faster by addressing the volume and velocity of today's collaborative work. More than 70% of the Fortune 500 companies are adopting these solutions globally.

2020

During the pandemic, we started conducting regular online training programs and collaborative webinars with external partners. We continue to do so today, increasing our global reach while improving the accessibility of our training modules to a virtual audience.

2020 (Continued)

In the same year, we also became a Distributor of Smartsheet in Asia Pacific, expanding our network from Malaysia to Vietnam, Taiwan, Hong Kong, Thailand, and beyond. This has given us many opportunities to organise networking events and roadshows, both in Malaysia and abroad, where we are constantly meeting new organisations with unique needs and perspectives on work management.

57Network's Meet & Connect 2023 event, held at Shangri-La Kuala Lumpur.

57Network's Vivien at Taiwan Cloud Summit 2023 as a guest speaker.

Our Core Competencies

The team at 57Network are experts in workflow management, solution building, tech deployment, and organisational training. We understand how these pieces interact with one another, and as a result, our clients can receive top-notch solutions and guidance on how to improve their organisational workflows and health, no matter the scale.

+ **Work Management Consulting & Solution Building**

We help organisations identify and validate the precise issues they face in their workflows, through a series of experiential and discovery learning activities. We go to the core of the problem and help them approach and focus on the key issues in phases.

+ **Solution Building**

Then, we map and build out solutions so that every member in the organisation becomes more agile and nimble in solving work execution problems.

We leverage the best management practices to transform the culture of work within an organisation entirely, with more than 4 years of experience in developing solutions for clients across industries like Oil & Gas, Manufacturing, Financial Institution, Property Construction, Engineering, and Professional Services.

+ **Software Integration and Implementation**

We ensure that your people, data, and workflow tools are aligned, so that automation can be seamlessly applied across all business operations.

+ **Strategic Onboarding and Training for All Stakeholders**

We believe that having a good understanding and command of the software solutions being deployed is the key to their success. Therefore, we offer comprehensive training programs for our clients, as needed, to motivate their stakeholders to embrace new solutions and workflows. Many of our training participants discovered that they are able to achieve work-life success after attending these sessions.

We use a proven learning approach and methodology to inspire people within organisations to work collaboratively. We even empower them to build their own solutions to solve new Work Execution problems, even if they do not have IT expertise or software developers to depend on.

Why work with 57Network

Want to transform the culture of work and achieve more goals at your organisation? Let 57Network be a part of that journey.

+ Satisfying Results

Our clients have reported great results after working with 57Network and using the recommended solutions:

- Sales and productivity both increased by 30%.
- Enhanced productivity resulted in cost savings of MYR100,000 annually.

+ Global Experience & Support

As a partner of many global firms and solution providers, our expertise in understanding and contextualising work management for different industries runs deep. With more than 2,000 documented use cases across multiple diverse industries, we completely customise the experience and solution based on your unique use case.

Our clientele span across industries like Mining, Oil & Gas, Engineering & ICT Managed Service Provider, Insurance, Payment Gateway Provider, Energy & Power Supply, Procurement & Construction, Automobile Parts Manufacturer, Architect Firm, Property Management Agency, Accounting Outsourcing Firm, and many more.

+ End-to-End Implementation

From software integration to human empowerment, we cover each step of the process toward your organisation's ultimate transformation. We do not merely give you a possible solution - we help you get buy-in from every stakeholder so that the solution is implemented thoroughly.

+ HRDF Certified Trainer

Our 57Network Trainer is certified by HRDF, and has more than 10 years of management experience in hospitality and charity organisation.
